

DEJ POL SOOLE

Manufacturer of various metal structures and niches

[www. Dejpolsoole .ir](http://www.Dejpolsoole.ir)

The company

DejPol was founded in the 1980, as a steel working workshop in the field of the heavy metal infrastructures and buildings. Since 2006 has been part of the Ebrahimi Family, who changed his name in the actual "Dej Pol Soole".

The headquarter of the company is sited in Dezful, near Ahvaz in the south-west of IRAN.

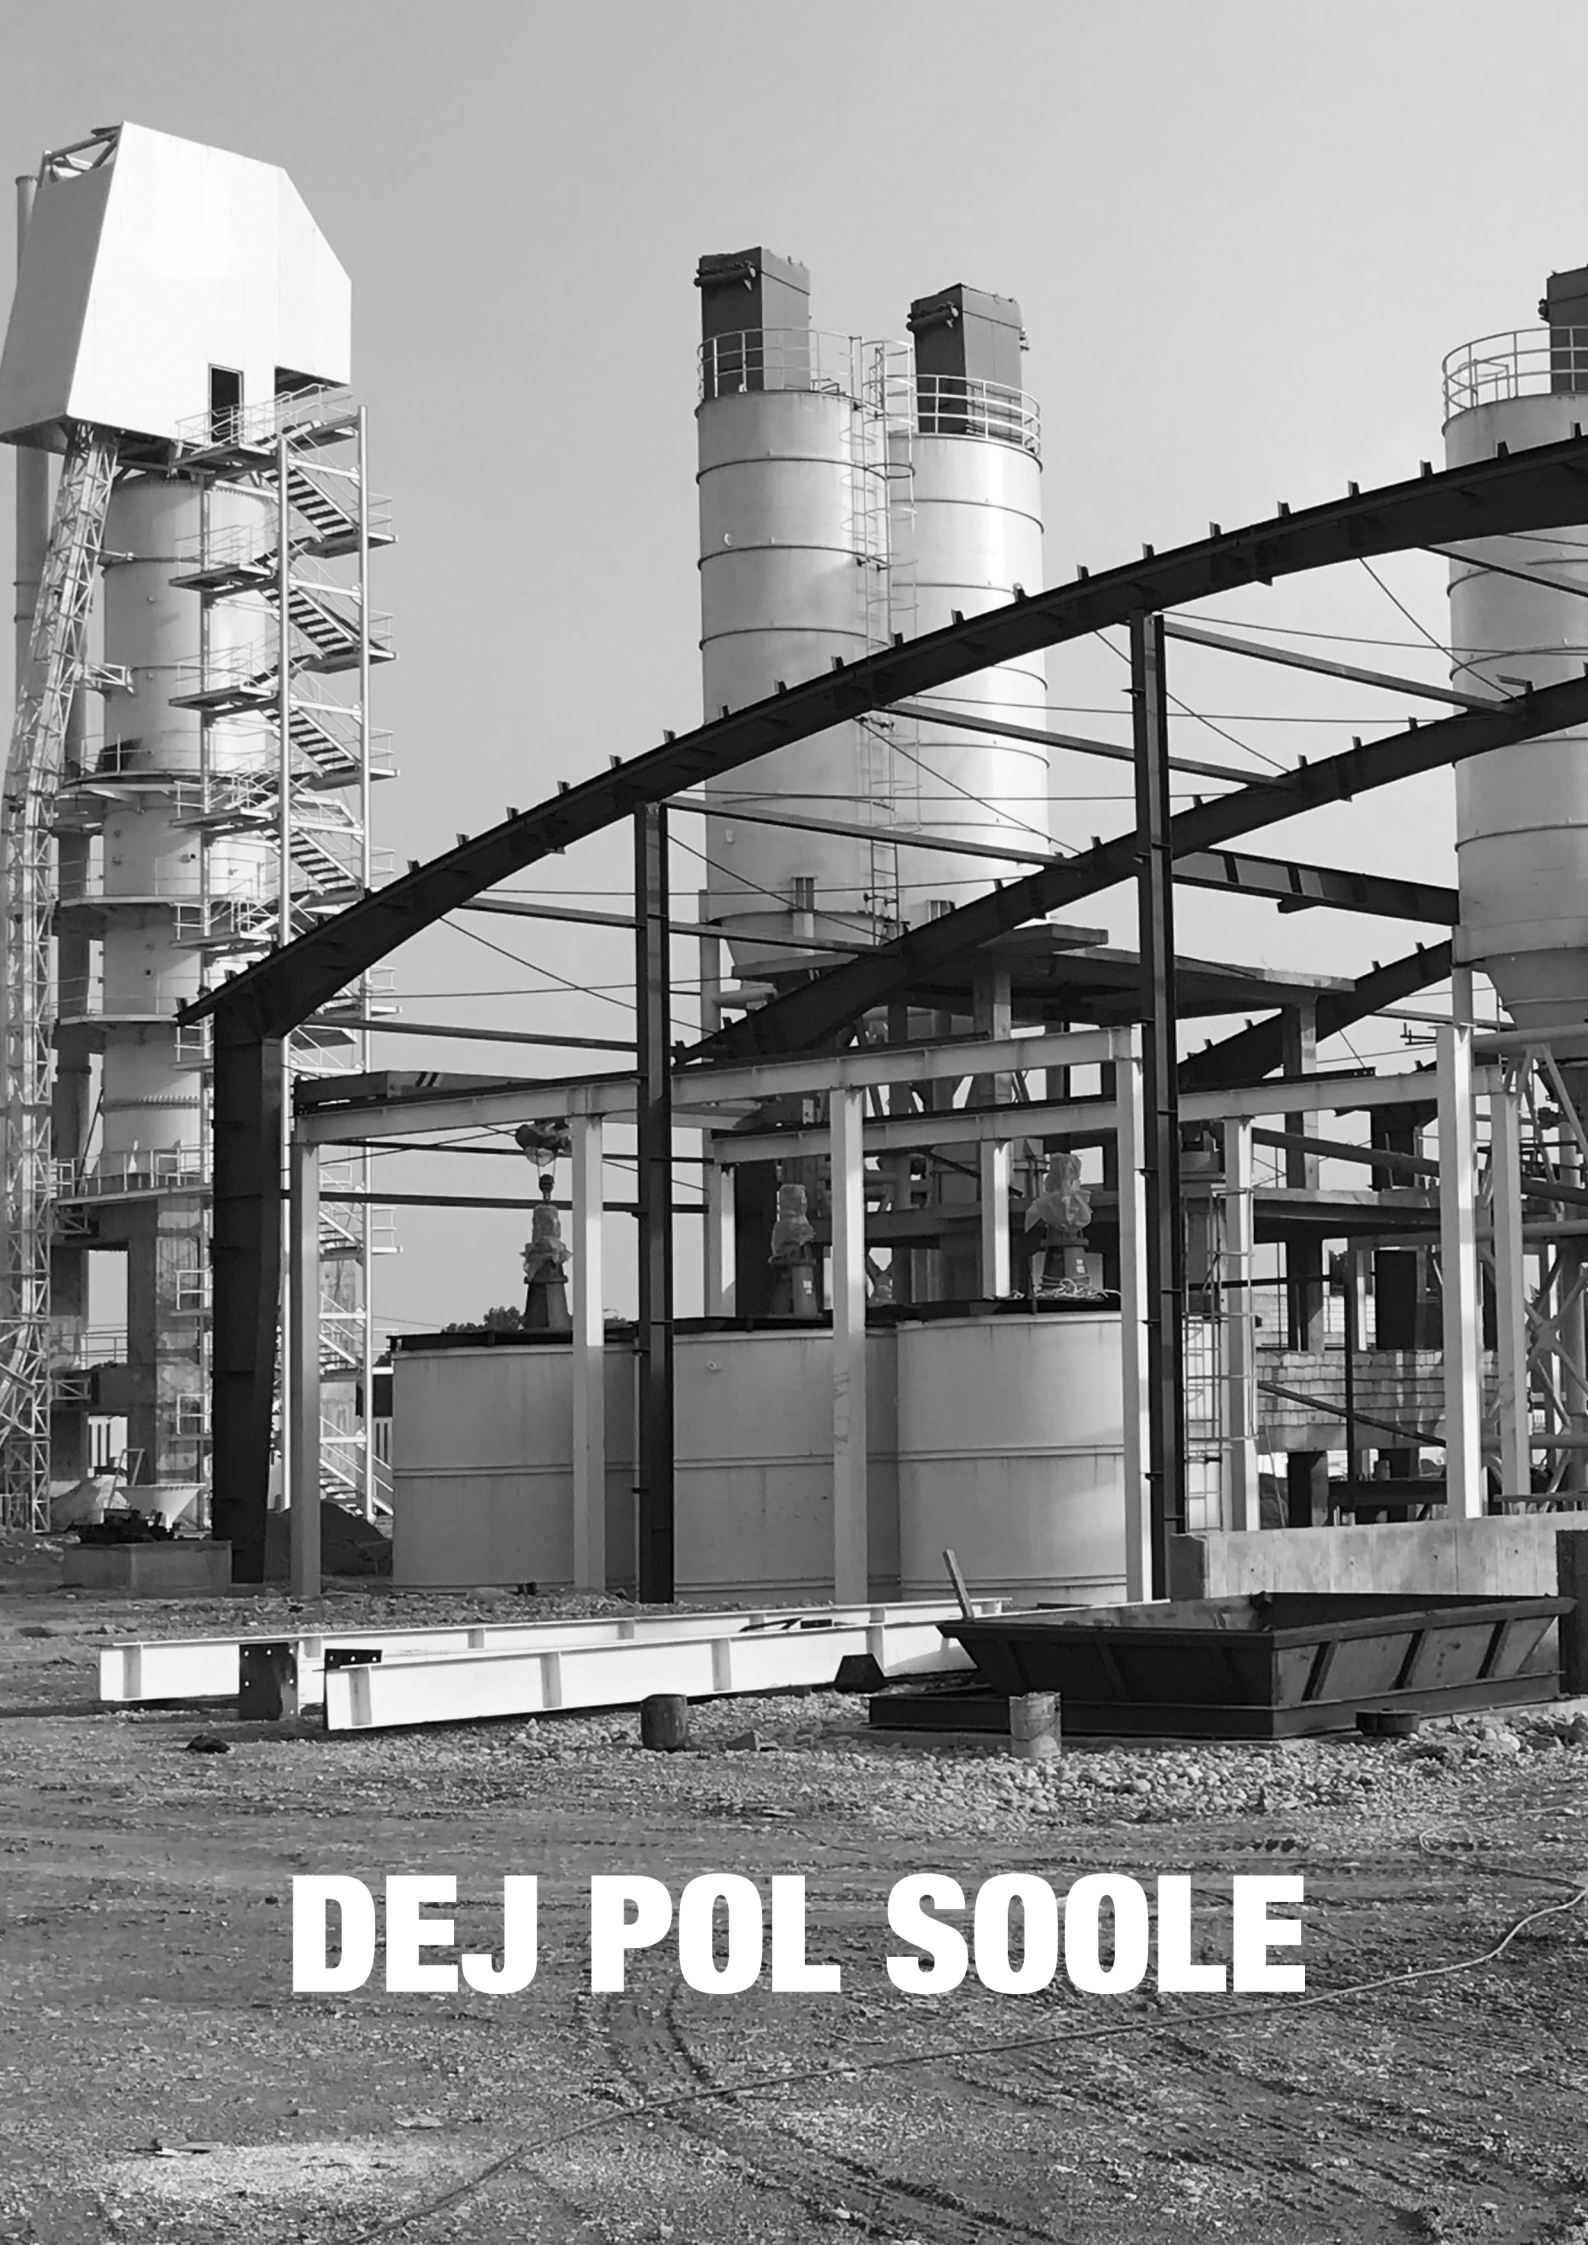

The DejPol facilities cover 14,500 sqm, out of which 8,500 sqm are buildings and offices.

The staff amounts to 130 people and it currently reports a production capacity of 1.250 tons/month of fabricated steel.

Products

Over the years DejPol has achieved a unique vast experience in the design, fabrication and installation of heavy infrastructures to be supplied on a turn-key basis, like :

- Civil and Industrial Buildings
- Steel Structure for power plant and oil and gas
- Industrial Shed & Warehouse
- Road bridges
- Overhead Cranes
- Welded beams
